2. ASSEMBLY & INSTALLATION NOTES

Level of difficulty: **EASY**

Required time: **0.5h - 1h** (depends on experience, available tools & skills)

1. Uninstall the OEM Service Panel.
2. Bolt the Carbon service panel (1) to the car using the 4x OEM M8 screws. As soon as the position of the service panel is adjusted, the screws are fixed with screw lock *LOCTITE 243 screw locking lacquer* and tightened with 25 Nm and.
3. Slightly loosen the M6x12 lens head screws (4) screws at the mounting tabs (2 & 3) so they can be adjusted to your assembly situation. Then tighten them with 10 Nm.
4. Fix the service panel at the mounting tabs (2 & 3) to the OEM screwing points with the 3x OEM M6 screws which are used with M6 spring washers (5) and tightened with 10Nm.
5. Double check all bolts and screws after a test drive.
